

Summer Programs COVID Policies Updated May 24

Summer Camp Specifics

Contact Tracing

- Contact tracing will still be needed for those who are not fully vaccinated and within 6 feet for 15 minutes or more cumulative within 24 hours.
- If a person is fully vaccinated and has been exposed, this person should be able to stay on campus.

Masking

- For unvaccinated individuals, masks are always on inside unless eating and sleeping.
- Masking is not necessary when outside for any participants.
- Fully vaccinated individuals do not need to mask inside, though they are welcome to continue masking if they prefer.

Physical distancing

- If outside, people do not need to maintain physical distance, be in a set pod, or wear a mask.
- If inside, fully vaccinated people should be encouraged to keep 3 feet of physical distance (this is not mandatory)
- If inside, non-vaccinated people should be in a pod and are encouraged to keep 3 feet of physical distance (this is not mandatory).

Pods

- Pod size remains at 50 people (indoor activity) based on current MDH guidance.
- Pods are not necessary for any outdoor activity.
- Fully vaccinated people can move between pods.

Dining Room

- Dining room seating will be 3 per table, grouped together so a pod can sit together.
- There will be 6 feet spacing between the pod tables with other pod tables.

Dancing

- Dances may be possible after June 1st depending on facilities availability and MDH recommendations of best practices. Please inquire with Margi Willmert.

Housing

- Campers will be housed as singles or doubles. Arrangements through individual camp directors. Triples are not available at this time.

Vaccine/Testing Pre-Camps

- Overnight Campers: Require a vaccination or negative PCR test before coming to campus.
- Day Campers: No vaccine or testing requirement.

Symptom Checking

- Still should do a daily symptom check.

Preparedness Plan

- Need to provide Covid Preparedness Plan 3 weeks prior to camp start date.
